Caucus Sends Ultimatum to Stettler M.L.A.

Withdrawing his support from Premier William Abernethy and Social Credit government last June, Chester A. Reynolds, Social Credit M.L.A. for Stettler, has been invited to support the caucus now in session at the legislative buildings to give a "satisfactory explanation of your conduct."

This invitation was extended to Mr. Reynolds in a letter written by William Tomlin, M.L.A., Willingdon, secretary of the caucus.

The letter, approved by caucus members, informs Mr. Reynolds that if he fails to act on the invitation "members have no option but to exclude you from future meetings of the Social Credit caucus."

Today's War Moves

Adolf Hitler's winter troubles are beginning, according to reports from Moscow and developments elsewhere.

Blizzards sweeping down into the Caucasus foothills are beginning to pile snow in the path of the Germans struggling to reach the Black Sea coast. In a few weeks snow and freezing weather are due at Leningrad.

Hitler long ago gave up hope of decisive victory in Russia this year and conceded that his forces would have to dig in for another bitter winter. He had, however, hoped to take Stalingrad, which still has some strategic importance, and to continue on Page 2, Col. 4

Victory Loan Soars Upward On Wednesday

Edmonton's Victory Loan officials expressed satisfaction with results obtained Wednesday when sales amounted to \$245,650 to boost the total to \$444,000. This total is 72.4 per cent of the city's quota of \$614,000.

Edmonton's sales were the result of 512 purchases.

Rural northern Alberta also contributed to the success for one day Wednesday when 810 subscriptions were sold for a total of \$144,400 to boost the rural total at the half-way mark to \$877,450.

In spite of the substantial drop in Wednesday's rural total for the first nine days is far behind schedule with only 31.4 per cent of the quota reached. The gross figure is still \$333,900 behind the target of the half-way mark of the campaign last February.

The province as a whole reached 63.6 per cent of its \$2,000,000 quota at the half-way mark. \$18,300 worth of bond purchases reached the half-way mark for the province was \$22,250.

WASHINGTON, Oct. 29.— (AP)—American and Japanese forces squared off today for another round in the spreading fight for the Solomon archipelago after a series of land battles bled the enemy heavily of men and equipment.

While United States air and ground forces fought to hold the Guadalcanal airbase, the battle of the southwest Pacific appeared to be surging toward 400 miles northeast of the turbulent island.

Superior numbers of enemy ships, planes and men were reported mobilizing at the approaches to American bases in the New Hebrides and Fiji Islands, whence they could strike at Allied command bases.

The navy reported no new details of warship activities in the Pacific last night, but Allied bombers from Australia raided the enemy again, damaging two Japanese ships in the Rabaul harbor of New Britain and splashing the Japanese base at Buna in the northern Solomons with explosives.

Dieppe Heroes Relate Gruelling Experiences of Memorable Raid

By JACK DELONG

He was just a young slip of a Canadian lad whose home was away back somewhere on the peaceful prairies of the West.

He lay on the narrow catwalk of a tank landing craft by the blood-stained sands of Dieppe. His left arm had been blown off at the elbow. Machine gun bullets had shattered the bones in both ankles. His thigh was shattered by another machine gun bullet.

Shells whined overhead to crash with terrific detonations on the beach around the craft. Enemy planes rained bombs from the skies. The lad from the prairies asked for a cigarette.

Lance Corporal Calvin Helmer, A.M.C. of Aless, Alberta, fought for him and then proceeded to do what he could to relieve the pain of the badly wounded youth.

"Don't bother me now with me. There are others who need help worse than I." He grunted broadly and puffed away on his cigarette.

"That was my mind was the most magnificent demonstration of courage and unselfishness I have ever witnessed. I don't know the lad's name, but I hear that he recovered from his wounds," L.C. Helmer declared here Thursday morning.

"That was the spirit displayed by Canadian and British troops at Dieppe. That deserves a spot in the history books. I will never know what give those boys the equipment to do what they did. I shall do the job," Lance Corporal Helmer asserted with great earnestness.

L.C. Helmer was awarded the Military Medal for his "skill, efficiency and coolness" in attending wounded aboard his tank landing craft.

\$458,258,300 Is Now Total For War Loan

OTTAWA, Oct. 29.—(CP)—Wednesday subscriptions to Canada's third victory loan totalled \$245,650, raising the cumulative total to \$458,258,300, the first nine days of the \$614,000 campaign.

Minimum objective for the 18-day campaign is \$750,000. During the first half of the campaign bond subscriptions were \$82,358,350 ahead of the minimum average price required if that objective is to be met.

But the aim of the national war finance committee is to obtain a sizeable over-subscription of the loan and today G. W. Spivey, committee chairman, said: "To attain this objective and then to have a large over-subscription that is hoped for, every effort must be doubled and redoubled."

Hepburn Denies Any Intention of Resuming Post

TORONTO, Oct. 29.—(CP)—Provincial Treasurer Mitchell Hepburn today termed as "absolute rubbish" a report that he was heading back into the provincial premiership because of reported resignation of Premier H. H. Gordon. Gordon, whom he succeeded as premier a year ago, was not expected to return.

"I am not heading back into the premiership," Hepburn said. "I am going to give very loyal support to Mr. Gordon as head of the government. I am not angling to get back as premier and will not do so."

"This change of Premier is a personal matter and has nothing to do with the government. It is a long distance to go."

18th ARMY BEATS OFF THRUST Heavy Attacks Made on Rommel Supplies, Bases

CAIRO, Oct. 29.—(AP)—Allied fighter pilots have added nine aircraft to the steadily rising toll of downed enemy planes in continuation of the punishing air offensive which supports the 18th Army's thrust against Marshal Rommel's desert lines, official reports said today.

While air attacks smashed at enemy supply lines and bases, the 18th Army's offensive against the Axis in a series of minor tank engagements yesterday.

Medium bombers struck again behind Rommel's line, scoring direct hits on camps and land convoys and starting many fires. Although many German fighters were seen in the battle area, a communiqué said, they were not attacked.

Fallow Speaks On Alaska Road

SENIOR CLUB, Que., Oct. 29.—(CP)—A discussion on post-war development will feature today's closing sessions of the wartime inter-provincial conference of roads ministers, deputy ministers and assistants.

The conference opened yesterday on the chairmanship of Hon. J. P. McInnes, minister of public works for Prince Edward Island, to the press.

At last night's session Hon. W. A. Fallow, Alberta minister of public works, gave an illustrated lecture on the building of an Alaska highway.

Hepburn States Party Pressure Reason He Quit

TORONTO, Oct. 29.—(CP)—Hon. Mitchell F. Hepburn, whose resignation as Premier of Ontario came with startling suddenness just one week ago, last night in a statement said that the intensification of party pressure interfered with his administrative duties to a point where "I was forced to choose between the party and the well-being of the nation; I have put my country first."

Nazis Claim Hull Going to Moscow

LONDON, Oct. 29.—(CP)—The German-controlled Paris radio predicted today that Cordell Hull would be sent to Moscow soon as German States ambassador and that Sumner Welles would succeed him as secretary of state.

"This change of States cabinet is a result of Wendell Willkie's visit to the United States is not adequately represented in Moscow."

Rickey is Named Dodger President

NEW YORK, Oct. 29.—(AP)—Branch Rickey today was named president of the National Baseball League and general manager of Brooklyn Dodgers.

Rickey, who had been promoted to club president, was named to a five-year contract, effective Nov. 1. He succeeds Larry MacPhail, who resigned the position to take a commission in the army.

A group of directors declined to name the salary terms, but as vice president and general manager Rickey's salary will be \$75,000 annually.

PRIMATE'S VIEW Anglo-American Friendship Vital Post-War Need for Birth of New Social Order

By DEWITT MACKENZIE
Associated Press War Analyst

LONDON, Oct. 29.—(AP)—Lord Archbishop of Canterbury, Dr. William Temple, tells me he believes Anglo-American friendship is one of the first needs in rebuilding the post-war world and he is concerned over a report he has received that the United States may draw away from this country because of Britain's trend to the "left."

Nixon Calls For Ontario Election

ST. GEORGE, Ont., Oct. 29.—(CP)—Harry C. Nixon, former Ontario Minister of Education, said today that a provincial general election should be held to "clear up the confusion" which resulted from Mitchell F. Hepburn's resignation and the subsequent succession of Gordon D. Campbell.

"I don't have to take second place in this province," Nixon said. "I don't think that anything will clear up the situation satisfactorily except to allow the people to express their wishes. We have reached the end of our mandate."

Asked if he would seek the nomination for Ontario Liberal leader if a provincial convention were called, Mr. Nixon said:

"The leadership I would be glad to accept."

Anglo-American Friendship Vital Post-War Need

Continued from Page One

Have a curious break in generations of conservation which have occupied the prime's throne.

He not only has been named a member of the Labor Party but for years has urged the rank and file toward a goal of partnership in industries in which they serve and has called for limitation of the profits of capital.

He has done this while venting in the nation which have occupied the prime's throne.

Finally, last February, despite the sensational manner in which he had been standing diaphanous on their heads, he was called at the age of 50 from the archbishopric of York to his present high position upon the resignation of Dr. Cosmo Lang.

What I really called on the archbishop for was to get his views on the subject of hanging Hitler and whether the Allies were fighting the war for Christianity.

The question of this "leftist" movement cropped up incidentally.

SOCIAL REVOLUTION

I'm glad this angle did appear because it emphasizes what a lot of people fail to realize—that not only Britain but the United States and many other countries are undergoing a great social revolution which is being spurred on by the war.

As I travel about and meet leaders like Dr. Temple I increasingly encounter this "leftist" note.

The archbishop received me in his official London home, sacred Lambeth Palace, against which suggested the Church of St. Mary, whose written history runs back 900 years and there loses trail. Both palace and church have suffered heavily from Hitler's hate but they still serve those who seek guidance.

Dr. Temple is a grand fellow to meet. Should that seem a shockingly undetermined way to speak about the Prime of all England (and it probably is), my reply is that if you could experience his delightfully-friendly personality and see him throw back his head in peals of schoolboy laughter, you would understand what I mean.

He is the sort of chap I'd like to go fishing with and that's the highest compliment I can pay him.

I raised the query of whether we are fighting for Christianity and called his attention to a question which had been asked in the House of Commons the other day.

A member's inquiry was based on statements recently made by Viscount Halifax and the British ambassador to Spain, Sir Samuel Hoare. The envoys were said to have defined the issues of the war as "establishment of Christian civilization and Christian brotherhood."

ATLANTIC CHARTER

The questioner asked whether in view of the fact that "millions of Jews, Hindus, Moslem nationalists and atheists are engaged in prosecuting the war" the government would indicate "that war and peace aims of the United Nations should be expressed in the broad and generally-accepted terms of the Atlantic Charter and not as the exclusive concern of Christianity or any body of religious faith."

To this the under-secretary of foreign affairs, Richard Law, replied:

"No, sir! Though the Atlantic charter remains the authoritative expression of the war aims of His Majesty's government, I think my honorable friend would admit that the charter falls within the broad principles of Christianity as would, I hope, any other aims to which His Majesty's government subscribes." Cheers greeted this answer.

Dr. Temple approached the subject with the remark that "Nazism is opposed to Christianity."

"It is an anti-Christian thing we are fighting," he said. "Nazism puts no limits to the state; that is to say, it makes it absolute. Christianity must resist that and insist that the state owes allegiance to God."

"Our civilization has many Christian features. The beliefs of civilized peoples are akin to Christianity though the ideas may have come from other religions. So we are

Auditions for the concert party were held under the direction of P.O. Robert Coote, R.C.A.F. The show will be prelude by a march of groups of army, navy and air force men in city streets. Starting at 9.55, the parade will move west on Jasper and north on 103 street to the Empire theatre. The military band of No. 3 "M" Depot will take part in the program, also will be in the parade. In the above group are: (1) Pte. Sgt. H. A. Bradley, R.C.A.F.; (2) Sgt. Arthur Bremner, old-time fiddler from central Alberta; (3) Cpl. Geoff Davis, R.C.A.F. Edmonton Manning Depot, master of ceremonies; (4) Cpl. Lou Ingham, pianist of classical and modern music; (5) A.W. Terry Butchart, R.C.A.F. (W.D.), blue singer from Lethbridge; (6) Pte. Sgt. Harold Kiddle, R.A.F. comic; (7) Pte. Vanda Huddleston, C.W.A.C. impersonator; (8) LAC. Laurie Frear, tenor; (9) Cpl. Dorothy Trono, C.W.A.C. Calgary, blues singer.

fighting against an anti-Christian thing and for something which is in harmony with Christianity.

FOR CIVILIZATION

"However, we are not fighting for the Christian faith itself. Moslems, Hindus, Jews and followers of other religions are battling beside the Christians for civilization."

To say for instance that we are fighting for the doctrines of the incarnation and the atonement would be nonsense."

He broke into a broad grin—and then, as was inevitable, he threw back his head and laughed. It emphasized his point and you couldn't help laughing with him.

"In this ultimate sense of Christian faith it would be wrong to fight for it," Dr. Temple continued.

"You can't extend it by fighting. Missionaries must not fight."

"However, in this war, we are resisting an anti-Christian thing. We are keeping open the way of life that agrees with Christianity."

"We are fighting to give every man his chance. That is democracy we are fighting for and that is part of practical Christianity."

I asked His Grace if he regarded Hitler as anti-Christian. The primate nodded and then told a story which was new to me. It was this—

"I understand that when Hitler came to power he called in members of the churches for a conference. He told them he did not want any trouble with them but that he regarded Christianity as a dying thing. He asked: 'You go on, but don't interfere with me and I won't interfere with you.'"

"Later, he encountered opposition of which Rev. Martin Niemöller is an outstanding example. The interment camps were filled with Christians."

"Hitler is out to destroy Christianity. Nazi leaders are definitely working for this goal and he fully acquiesces."

SUPER-HUMAN FORCE

"He believes in a pantheistic super-human force which he calls god. To his mind the German race is the highest expression of this force."

"Hello, CANADA!"

"Hello, JACK!"

"It's JACK, . . . We're thinking of you folks back home."

"Tell the boys we are backing them up . . . all we have is theirs."

"Since Dieppe there's no holding our boys . . . they're in high spirits and in great fighting trim."

"The people here will roll out their dollars for the Victory Loan . . . so you'll have all the tools you need . . . to bring you home sooner . . . to bring more of you home."

"All the same, it takes ships and planes and tanks and guns . . . a constant stream of them . . . so keep 'em rolling."

"Here's our slogan, Jack . . . 'Nothing matters now but Victory'."

"You save our lives and we'll save yours!"

"It's our pledge to you and WE WON'T FAIL YOU!"

Not Enough Buyers

Edmonton, Alberta and the Dominion were all well over the halfway mark when the Victory Loan campaign had run half the allotted time. This is as it should be, and must strengthen confidence — if it needed strengthening — that the quotas will be reached.

It must be remembered, however, that \$2,000,000 of the amount subscribed in Edmonton came from the Province of Alberta. Through the capital city was credited with the sum, this was not Edmonton money. It did not come from Edmonton bank balances and savings, did not represent self-denial or forthrightness on the part of the people of this city.

So far as the war chest is concerned it amounts to the same thing, but there is one important point to be noted. Up to Tuesday evening Edmonton people had subscribed only \$1,766,950 of the sum credited to the city. They had not therefore kept pace with the people in other parts of the province or of the Dominion. Which means that people elsewhere have been fortifying themselves against future need more generally than Edmonton people have been doing.

That does not augur well for conditions in Edmonton in the post-war years. Those who live here will find financial reserves in those emergency days, just as much as those who live in other parts of Alberta or of Canada. There should be a speeding up of Edmonton subscribing, and a large increase in the number buying bonds.

A Picture of Gallantry

That was a magnificent speech delivered last night to the annual meeting of the Edmonton Chamber of Commerce by Mr. H. Napier Moore, editor of Maclean's Magazine.

Mr. Moore revealed an admirable three-fold capacity in this excellent and moving address.

First, he was able to understand what he had seen on his recent trip to Britain with a party of newsmen.

Secondly, he was able to tell about it simply, interestingly and well.

Thirdly, he was able to make his audience feel it and feel very much about it.

And that, of course, sums up all the art of oratory.

But if Mr. Moore possessed the capacity for delivering his messages, feeling that his audience possessed a no less capacity for receiving it feelingly.

Surely, there could have been no one in that tremendous audience who did not come away with a clear and precious picture of gallantry in his mind.

The gallantry and heroism of all the armed services. The gallantry and courage of the people of Britain.

For Mr. Moore took his hearers to the beaches of Dieppe, to the air bases of the Navy, to the Canadian camps of the army, to the control towers of the flying fields, and to the homes of those folk who have cheerfully suffered the devastations of total war.

No one who heard this address could have lacked a sense of their sacrifices. No one could have lacked the feeling of their heroism.

And no one who heard Mr. Moore's simple and effective story could have failed to accept with all their hearts the slogan of the war.

That "Nothing matters now but victory."

This occasion was a landmark in the Dominion's understanding of the needs of war. It was a call to rededication to the purposes of the war.

Edmonton owes Mr. Moore a debt of gratitude for a splendid and enlightening speech.

Behind the Screen

Gaudealcan lies about 600 miles east of the Jap bases on New Guinea. The Fiji and New Hebrides islands—near which the United States battleships encountered strong Japanese naval forces—were 1,000 miles east of Gaudealcan. The Gilbert Islands—which are supposed to mark the northern limit of the present combat area—are about 2,000 miles north-east of Australia.

Thus, over an expanse of island-studded sea two-thirds of the way from the Atlantic Ocean from Newfoundland to Great Britain, and as long as from New York to Panama, warplanes and warships of the United States are playing a deadly game of hide-and-seek with the air and sea craft of Japan.

What wonder if the news from that fighting zone is delayed, confused and contradictory? The more so because the demands are so great, and because it is the settled policy of Tokyo to manufacture "news" and suppress news for purposes of propaganda and in hope of encouraging information from Canberra or Washington.

The whole future course of the war in the Pacific may be decided, and the balance placed on, and over the islands and waters of that heavily screened area. We on this continent can only await the outcome in unavailing ignorance, broken by such brief announcements as the U.S. navy department can safely release.

For all who comprehend the issues which may hang on that far-flung melee it must be a time of tension. But there is one safe and sane rule to follow while we wait for the end of the battle. It is to regard all news that comes from Japanese sources as having no necessary relation to facts. Remember the glowing accounts of victory which the Tokyo radio fed the home folks while the fugitive survivors of its great armada were limping back from Midway?

Believe nothing that comes from Tokyo unless it is confirmed from some non-Axis quarter. That is the standard rule of prudence which the enemy announcers have set for themselves.

The Berlin radio hints that the Nazi authorities may resort to shacking British civilians who are interned in Germany—perhaps in occupied countries as well. Nothing may come of it. But Canada and the other Allied countries should reach some decision in advance as to what will be done with interned German "nationals" in case the threat is carried out. It is not to be assumed that a common policy had been adopted might have some restraining influence at Berlin—might have.

The retirement of Mr. Percy Abbott from the managing directorship of the Exhibition Association will be very widely regretted, in Edmonton and far beyond. Even more to be regretted is the fact that ill-health has compelled this course. Mr. Abbott has lived in Edmonton since he was a young man. For more than 20 years he has been the operating head of the Association, and the steady success with which its affairs have been conducted is the proof of his fitness for the task. Thousands of people in other parts of Canada and the United States will join his townsmen in hoping that freedom from the responsibilities which he has long carried will enable him to store the health of this well-known citizen.

Senator Tydings was the "big" thing in the United States today. He was not to see the United States today. He was not to see the United States today. He was not to see the United States today.

Too Much Quibbling Over Who Shall Play Major Part In War

By DOROTHY THOMPSON

All elections are preceded by a flood of demagogic promises. The attempt of the U.S. Congress to restrict the role of the military in respect of the latest group of recruits, namely those of 18 and 19 is no exception. It is a demagogic measure.

Preview and Review Of Sport

By Hal Dean
Sports Editor of The Edmonton Bulletin

WITH the final in the Alberta junior football playoffs only two days away, Coach (FO) Jack Jamieson is not taking any chances and is putting his Airmen through stiff daily paces in spite of the fact that "M" Depot's lead of 10 points gives a comforting feeling in the ultimate outcome.

Calgary Army Cadets continue making at least two changes according to Harry Scott of the Airman. Coach Ed Roring intends to use first-footed Tommy Morrison of the Navy Cadets and possibly Jack Hobbs, now living in Edmonton.

Hobbs turned out with Ken McArthur's Navy squad in the clash against the R.C.A.F. a week last Saturday and the fact will no doubt recall his great work in the backfield for the Tars that night. In fact, the entire squad was a real standout in that game and his blocking, catching and ball carrying would be a great asset to the Calgary club Saturday afternoon.

Ed Roring's squad of 13 last night, Sep. 22, was four wins against one loss, with Wednesday's victory in the runner-up position with a three and two record.

Scots, making a somewhat belated start for the year, opened on that traditional evening to the extent of 23-1 for an initial victory yesterday. The Airman and Cox must also have been giving football in Ontario the once over while attending Eddie Sherry's hockey school down at Midland, for he celebrated his return by gathering in 16 points, two touchdowns and a convert rep.

Buffalo Bisons Dampen New Haven Eagles' Opener

NEW HAVEN, Conn., Oct. 29.—(AP)—New Haven Eagles of the American Hockey League arrived in town at 7:40 o'clock last night and opened their home season a little more than a half hour later, but were not match for Buffalo Bisons who defeated them 6-1 in a game marked by numerous flat fights.

Police went out on the ice in the final period to clear the general melee that resulted in major penalties to the Eagles and Fred Hunt of the Bisons and Winkie Smith and Max Lavibovich of the Eagles.

The Eagles scored first in the opening period when Joe Shuck potted home a shot from the point. Hunt and Max Bennett put Buffalo ahead before the end of the first. Charlie Kraizer added another goal for Buffalo in the second.

Between fights in the second, Fred Thirler scored twice and Bullet Bill Sunderhill, a former Eagle, made good a back-handed solo try.

Earnings Now \$538,336 Pimlico Soft for Whirlaway Has Tracked to Himself

BALTIMORE, Oct. 29.—(AP)—Sixty-nine horses raced for all they were worth at Pimlico Wednesday, but the 70th and ran around the track unopposed and won all the glory and a major portion of the money distributed.

Warren Wright's Whirlaway, running his 55th race in nearly three years, won the \$100,000 special in a walkover to take down the \$100,000 invitational Pimlico special.

The purse raised his lifetime winnings to \$538,336, or \$100,000 more than the record of his nearest rival, Sea-biscuit.

Whirlaway walked around the infield and when the bugle sounded he went with his lead horse and the two outsiders up past the stands to the head of the stretch.

With Jockey George Woolf aboard, starter Jim Milner waved his flag and the Calumet came off.

It was a typical Whirlaway race, except that there were no other horses ahead of him in the early stages, and when he tracked the lead with a burst of speed, he was far from there were no horses there to be passed.

A crowd of 8,000 people gave him an ovation as he came to the wire in 2:05 2/5 for the mile and three sixteenths.

The nine other horses invited to compete, including Mrs. Albert Schmitt's Abah, had to make the contest the sixth running of the special.

The first successful cigar-making machine was introduced in 1893 but millions of cigars are still made by hand.

Scots Wallops Vic 23-1

Sep Defeats Westglen 19-12 In Senior Hi Football Tilt

Separate gridders took over undisputed possession of first place in the senior division of the high school air man football as they edged out Westglen 19-12 at their home grounds yesterday.

At the South side Athletic Park, Scots turned in its initial win of the season and did so convincingly by walloping Vic 23-1.

Each team now has one game to play in the schedule. If Westglen wins its final encounter at home, it will be in the last minute of the quarter on a deadline kick.

The winners started a drive in the second frame which carried them to the looney's six-yard line. From this point Cansgrove ploughed to the two and then Cox knifed his way over.

The South Riders continued to apply the pressure in the third season and held a wide margin in territorial play. They accounted for another touchdown near the close of this period with Cox driving over on a double reverse play.

They kept up their blistering attack in the windup period, already leading 20-0. Cansgrove on an end run, shook himself loose and galloped 25 yards for a major score which was converted by Cox.

Up to the deadline, the game was a rout by Norman Seal, who completed the afternoon's total.

Strathcona-Proctor, Cansgrove, Cox, Pat Williams, William Swail, Lou Martin, Sullivan, Victoria-McLeod, Peter, Hewko, Smith, Mitchell, Parr, Collins, Hark, Kuchinsky, Lawrence, Plymman.

Officials-Gordon McGee.

SENIOR HI LEAGUE

Westglen playing a vastly improved brand of ball in the third quarter, started a drive. Jim Stuart attacked a downhill march by punching his way over from the forward line. In the final minute of this frame, Lee sent his Sep mats still another point to the good on a kick to the deadline.

The Westglens threw caution to the winds in the windup period and tossed a number of passes. One of these, Young to Stuart, was completed, for a major score. Young then kicked the convert.

A fumble by Stuart when tackled hard by Heaney gave the Blue and White possession on the oncoming 23. On succeeding play, Heaney on a reverse sweep over for a touchdown, O'Brien converted.

By balance of the game, the two sides strove desperately to close the gap but the best they were able to do was a reverse by Culbertson.

Serrate - McElate, Heaney, Barry, Hardy, Lee, Greene, O'Brien, McCormick, Casault, Pihl, Heaney, McElate, O'Connor, Maher, Turner, Young, Stuart, Fleming, Egan, Hodgson, MacDonald, Mackie, Smith, Brown, Heaney, Petterson.

Officials-Mr. Stewart and Mr. Wilcox.

COX, CAUSGROVE

Ken Cox and Bob Cansgrove making their first appearance of the season were largely responsible for Scots' easy 23-1 triumph over Victoria. These two stars performed as transformed the last place Scots into a real machine as they showed the extent of the offensive and defensive.

Canada Only Canadian in Latest List

WASHINGTON, Oct. 29.—(AP)—Cp. Billy Conn and Bob Pastor are the "logical contenders" for Sgt. Joe Louis' heavyweight championship crown, the National Boxing Association reported today in announcing that top-ranking fighters now in the armed services shortly will be placed in a special "honorary class."

Joe J. Greene, N.B.A. president, said that in December the association will announce plans for listing "duration champions and contenders."

These ratings, Greene said, "will be based on policy of freezing the duration of the life of men in the service. He added that such a system would be an incentive to champions now in uniform and prevent the suppression of boxing crowds by self-declared champions or by dictum of any individual athletic organization."

The only Canadian in the N.B.A. list this year, Jackie Callura of Hamilton, Ont., was named an "outstanding boxer" in the featherweight class.

The N.B.A. ranked Pastor as the "leading out-of-the-service" heavyweight, ignoring his recent defeat by the hands of Jimmy Brown of Cleveland and Pastor's announced intention to fight Brown again in a few days.

But N.B.A. explained that Brown's victory over Pastor registered after the Oct. 19 deadline for contests to be included in the rankings. Brown was listed as the No. 2 light-heavyweight.

Mello Belina was placed at the top of a group of "outstanding boxers" in the heavyweight class. The N.B.A. said that his service probably would prevent any ring activity on his part "which would have competition principally in the hands of Lee Savoldi and Tami Mello."

Manuel Ortiz, whose victory over Leo Salda has been recognized by the N.B.A., was ranked the No. 1 contender in the new change in the title classification in the New Ratings.

Six Manitobans Okayed

Order-in-Council Eases Hockey Migrants' Troubles

WINNIPEG, Oct. 29.—(CP)—Officials of the Winnipeg office of the national selective service administration said Wednesday a number of Manitoba hockey players have obtained permission to play in the United States this season.

Permission was granted, officials said, under a new order-in-council which went into effect eight days ago and says in part that members of dramatic, artistic, athletic or spectacular organizations departing from Canada temporarily for the purpose of giving public performances or exhibitions of an interesting or instructive character, are exempt from obtaining labor exit permits.

While officials declined to give names of the men who have received exit permits, six Manitobans were left here last night when they left for the United States to play hockey in the National Hockey League. They are Harry Marcy, Bill Gooden, Gus Schwartz and Spencer Tatchell, all of Winnipeg and Joe Bell and Len Bend of Portage La Prairie.

Two players, Gordie Bell of Portage La Prairie, and Wally Stelmach of Winnipeg, who are playing in the United States, had been in the United States since they were drafted by the American Hockey League and the latter with Cleveland.

Officials said that the players whose ages range from 17 to 22 have permission for temporary visits only and are liable to immediate recall to Canada for military service in peacetime.

All those leaving with New York Rangers tonight are "this year's bracket."

Selective service officials said that order-in-council, P.C. 901, effective since Oct. 20, provides that no man or woman over the age of 18 may leave Canada without a passport or a valid labor exit permit or exemption from obtaining a permit.

The hockey players, the officials added, may obtain permission to go to the United States.

They will be permitted to play in the United States under sub-section E of paragraph four of the order-in-council.

In order to obtain an exemption certificate, physically fit men of military age have to produce before a selective service officer a passport and immigration papers obtained from the dominion passport office, Ottawa, and a letter from the United States consulate stating they will be granted a visa, and a selective service officer.

If they produce passports and immigration papers issued by the United States consulate in Ottawa, the local selective service officer accepts this as evidence that they have satisfied the requirements of the National War Services department.

Two Canadian Rookies
Very Promising Prospects

MONTREAL, Oct. 29.—(CP)—Montreal Canadiens have two rookies at their National League training camp this year and when it comes to selecting the most promising prospect—well, a toss of a coin is about as good a way as any.

Bobby Carragher and Maurice Richard, both of Montreal, are the youngsters and Dick Irvin is proud of both, but he refuses to comment on their relative ability.

"I still don't know if we will be signing them so how can I tell what their prospects are," he says.

Carragher's hockey career has been temporarily stopped because of an eye injury. The Canadiens medical officer ordered him to rest for a month because of a slight haemorrhage behind the eye, so he may not appear in any early-season games.

The ability of these rookies to compete in N.H.L. circles has been demonstrated in practice and exhibition games. Both Carragher and Richard have plenty of power, speed and stick-handling skill.

Sport circles in Montreal say both youngsters will be signed by Canadiens. Carragher has been going well alongside Gordie Drillon, former Toronto Maple Leaf star, and Buddy O'Connor, centre of last year's Canadiens rattle-dazzle line.

Richard has been teamed with Elmer Lach and Tony Demers on Irvin's ambulance line.

Carragher, 19 years old and weighing 165 pounds, comes to the Canadiens' camp from Montreal Royals of the Quebec Senior League. Before that he played for Royals juniors and Montreal school teams.

Richard, also 19 and tipping the scales around 180, was with Canadiens in the Q.S.H.L. last year.

The difficulty in Richard's case is that he works in a defence plant. It is not known whether he can obtain his release to travel with Canadiens on tour.

Play Toronto Saturday

N.Y. Rangers, 25 Strong
Head East for Hockey Wars

WINNIPEG, Oct. 29.—(CP)—Manager Lester Patrick of New York Rangers headed a party of 25 players who en-trained last night for Toronto following the break-up of the ninth annual training camp here Wednesday.

Patrick said the players would get another final workout at Maple Leaf Gardens in Toronto before taking on Maple Leafs in one of the opening games of the National Hockey League Saturday night.

Patrick said the players would get another final workout at Maple Leaf Gardens in Toronto before taking on Maple Leafs in one of the opening games of the National Hockey League Saturday night.

Coach Frankie Roucher said the "kids" may play Saturday night. Several of the amateurs in the party are expected to be signed to contracts with New York Rangers of the Eastern United States Amateur League. Patrick said before leaving, however, that he was not certain there would be a team representing Rangers this season.

Another westerner in the group was Hymie Butler of Saskatoon, holder of four Saskatchewan Junior men's aquatic championships. Hymie played in the Junior league last season.

There was no let-up in the Ranger training schedule and the entire squad went through a stiff workout early today before packing for the trip east.

An Superstein, 17-year-old junior from Edmonton, who was trying out with Rangers at the camp here, went back home and was not included among the 25 players.

Kansas City Ace
With Seibert on
Chihawk Defence

HIBBING, Minn., Oct. 29.—(CP)—Although Manager Paul Thompson refused to commit himself on the makeup of his defence line for the National Hockey League opener in Chicago against Boston Nov. 5, Red Mitchell, 178-pound star of last season's Kansas City Americans, was paired with his Elmer Seibert in yesterday's workouts.

Leo Carbol, a 194-1/2 member of the St. Louis Flyers, and Joe Mullen, another defenceman of last year's Kansas City team, made up another line. These two played together for nine successful seasons as members of the St. Louis club.

Thompson said after Wednesday's workouts he would try the same formations today with Aud Tates, a third member of last year's Kansas City club, alternating with Mullen and Carbol. Tates was named on the all-star American League team last season.

The gaps were left in the Hawks defence by the loss of Joe Cooper, Johnny Marney, Art Wiebe and Gaetan Samard to St. Louis.

By HUGH FULLERTON, JR.
NEW YORK, Oct. 29.—(AP)—New York fight enthusiasts are talking about a return meeting here between Frankie Zivic and Henry Armstrong. Maybe they didn't see those pictures from San Francisco showing Henry's punch looking like a Hall of Fame sucker after he won from Frankie.

Thought for Brooklyn: Branch Rickey always used to say that if he ever had direct control of a ball club, Burt Shotton would be his manager. "The football Yale used to beat Dartmouth last Saturday won't go into the trophy case this year. The Red Sox players photographed it and gave it to Gary Odell, coach Howie's five-year-old son, who is laid up with a plaster cast on his ailing leg.

Today's guest star: William McClellan, New Orleans Times-Picayune. "Chancellor O. C. Carmichael of Vanderbilt said that the students attending the university without a serious purpose should enroll in the armed forces 'before sundown.' He probably was referring to those students who make up the football squad, because we notice his suggestive came right in the belt after that 35-0 passing Mississippi Sarge dished out."

He means well.

Proving Giant Killers

Virtually Unknown Team
Surprise of English Soccer

NEWPORT, Wales, Oct. 29.—(CP)—The greatest surprise of Britain's football season is the mighty challenge of a big-name house team—Lovel's Athletic—which is making wartime sports history. It's one of those oddities that pop up in a country at war.

No one gave Lovell's much thought when the Confectionery Factory club in this Welsh seaport received permission at the season's start to enter British soccer. Grouped in the football league west, it was pitted against such crack clubs as Cardiff City, Swansea and Bristol.

But the "Candy Club" is giving a terrific show of power and in its giant-killer role tops the sixteen league without loss of a game—six victories and a draw. Experts agree the team might easily be a power

Ray Blades Quits

CINCINNATI, Oct. 29.—(AP)—Ray Blades, former St. Louis Cardinals manager, resigned yesterday as coach of Cincinnati Reds. He was reported to be seeking a minor league managerial job.

Canadiens Lose
To Cornwall 5-4
On Penalty Shot

CORNWALL, Ont., Oct. 29.—(CP)—Cornwall's army entry in the Quebec Senior Hockey League handed Montreal Canadiens of the National Hockey League their first exhibition game defeat of the season Wednesday night when they walked off with a 5-4 decision.

A penalty shot late in the third frame gave Cornwall their margin, after Canadiens had come from behind to tie the count. Jim Cocher lost Bibeault cleanly with the winter after Jack Portland when he was in the clear in front of the goal.

Canadiens' Gordie Drillon rattled home three of his team's four goals. The other went to Tony Demers. Steve Latoski, with two goals, was Cornwall's high man, while other Cornwall marksmen in addition to Coach Leroy Thibault and Jimmy Drummond.

Starts on Friday

The City Girls Basketball League gets underway on Friday night at the Y.W.C.A. with a pair of contests being played. The initial tilt starting at 8 p.m. will see Bissell and Spruce Grove pitted against each other in a scheduled game. Immediately following there will be an exhibition between the "Y" and Clare Holingworth's Stars.

All four teams boast some high class talent on their rosters and as a result, the calibre of basketball should prove very excellent.

North Seen as Vast Reservoir For Oil Needs

Bituminous sands of Canada's northwest could furnish sufficient crude oil to last the continent of North America for 200 years, according to geological estimates, members of the Junior Chamber of Commerce were told by Leo McKinnon, of Canadian Pacific Airlines publicity department, at a monthly meeting in the MacDonald Wednesday.

Mr. McKinnon's address on developments in the Alaska highway, oil development at Fort McMurray and Vermilion, and air freightage in the north were shown by Mr. McKinnon.

The speaker said some idea of the amazing pace of development in the northwest since Pearl Harbor can be obtained through comparing present populations of northern centres to that of a year ago.

For instance, Fort St. John had a population of about 150 less than a year ago. Now there are about 4,000 people there, exclusive of troops. Whitehorse, with a normal population of 600 now has more than 4,000.

In ordinary times there are fewer than 10,000 people in all of Canada's vast northwest, 2,000 of whom are while, Mr. McKinnon stated.

The aerial route to Alaska, along which the new highway runs, provides the only all-weather aerial route to the north. The great barrier of the Rockies shuts out most of the fog and heavy weather of the west coast.

YIELDS VITAL ORE

The airplane has made the immense development of the north possible, and vital tungsten and scheelite ore are now being ob-

tained in this area, because of aerial transport.

Of the bituminous sands, it has been estimated there are 30,000 square miles of oil-bearing sands. The sand has an average of 18 per cent oil.

C.P. Airlines are carrying an average of 10,000 pounds of mail per week between Fort St. John and Fort Nelson.

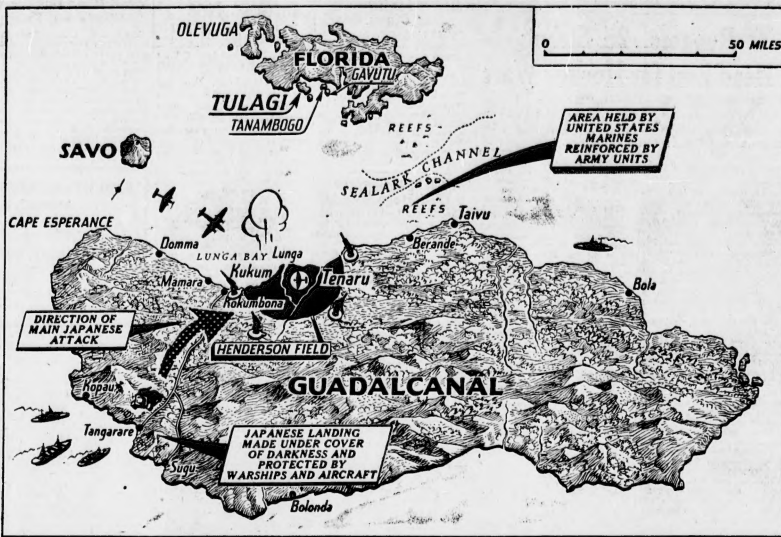

J. E. Hart, second vice president of the junior chamber, presided.

President Gordon Newton announced the national film board of Canada is seeking the co-operation of junior chambers throughout Canada in presenting films, depicting air raid precautions, salvage and other educational matters.

O. C. Wilson, of the National Film society, will visit Edmonton soon and the matter will be taken up at that time.

It was reported the Model T derby at No. 3 "M" depot was a great success. Plans are being made for holding another next year.

Destruction of Rommel Montgomery's Objective

So far as it has gone, the British offensive in the Egyptian desert has been wholly successful and each operation has been carried out ahead of schedule. But the work of the past three days has been of a routine nature in which battle casualties and equipment have not been subjected to the test. Nevertheless, even at this early stage, it is apparent that General Montgomery has built the Eighth Army into the new deeper positions, and the work of breaking down the enemy's barriers continued.

CAPTURE MANY PRISONERS

It appears that enemy defense works have been constructed to a depth of four or five miles in places, while some correspondents say that the British advance has averaged five miles over the whole length of the line, which is evidently not the case. A very encouraging feature of the attack to date is that a considerable number of enemy prisoners have been captured, both German and Italian.

His indicates swift, perfectly executed operations by British forces which were able to trap enemy units defending various posts and make it immediately apparent to them that further resistance was useless.

It may take another two days to smash the entire defense system constructed by the Germans, and bring the main armored force of the enemy to engagement. Hitherto, aircraft have not been able to win victories over tanks. This, I think, is only because the tanks have always been fought in the open desert, where tanks were well dispersed until the moment for action came, when they suddenly grouped together and locked horns with their adversaries. In the middle of a tank battle it is impossible for aircraft to operate against armored forces because of the general inter-penetration which makes it as likely for bombs to fall on friend as foe.

WIDESPREAD OFFENSIVE

The present British offensive may be different. It is being fought on a narrow front, and the British are pushing their artillery and mobile infantry ahead. If Rommel decides to make his armored strength to oppose the British advance, aircraft carrying much larger bombloads than those hitherto used in the desert will not be able to play havoc with the armored formations.

Rommel's chief worry is that his entire system of supply is subject to attack by British warships and planes. Allied command of the air and sea leaves hundreds of miles of Axis transport routes exposed to bombs, shells and torpedoes. From the front line back a hundred miles along the coastal railway and the coastal road, fighters and bombers are derailing trains, breaking up motor convoys and touching off fuel and ammunition dumps.

MUST DESTROY ROMMEL

It is almost certain that Rommel will not be able to withstand the impact of the British attack. It would seem that he must retreat. The problem will be to prevent him from making a rapid withdrawal from the corridor in which his forces are now contained. Here, again, and in particular, the possession of overwhelming air power becomes important. It is not enough to prevent a retreat, but to prevent a rapid withdrawal from the corridor in which his forces are now contained. Here, again, and in particular, the possession of overwhelming air power becomes important. It is not enough to prevent a retreat, but to prevent a rapid withdrawal from the corridor in which his forces are now contained.

Supplies and materials which have been accumulated over a period of time by trucks and trains must suddenly be removed under pressure. The traffic flows both toward and away from the endless streams. Merciless air bombardment in great concentration cannot help but disorganize the motor convoys, and fill their pathways with craters which are difficult to negotiate.

The new offensive in Egypt comes at a critical time, when the Germans are making their last desper-

ate attempt to capture Stalingrad and drive down to the Gironde oil fields before winter sets in. At present, the Russians seem able to hold the enemy on all fronts, and the Germans have not shown that they can strike telling blows in the three main battle sectors in Southern Russia at the same time. Now that their armies in North Africa are threatened with annihilation, the reservoir of supplies in Southern Europe will not be available to replace their losses in Russia, and the diversion of aircraft from the Russian to the Mediterranean front is almost inevitable.

Moreover, should the Germans fail to rescue their North African forces, their whole Balkan front becomes exposed, and they must prepare to fight against the possibility of attack in Southeastern Europe through the Aegean or the Adriatic Sea, where great masses of the Italian population will be waiting to receive them, and are only too willing to rise up against their German masters. The Germans are not blind to this possibility, and the defeat of Rommel would immediately put a stop to all German offensive operations in Russia, because of the necessity of covering their exposed southern flank.

The critical battle in the Southwest Pacific is still deadlocked, and the Japanese are making furious attacks against Henderson Field on Guadalcanal Island. They are using aircraft and artillery to support their troops. Hitherto, the American defenders have been able to repel the attacks while the United States air and naval forces are attempting to cripple the Japanese fleet and destroy the bases from which the enemy draws his strength. The accompanying map of Guadalcanal depicts the scene of land operations; and locates the air base for the Japanese, because of which the battle is being fought.

Protest Against Recent Bus Order

Strong representation against the order to limit bus operations in inter urban areas to 50 miles radius, was made by G. S. Smith, chief transit controller, Toronto, by residents of the Vegreville constituency.

Representatives of the order is increasing daily, especially in the areas where passenger trains run three times per week only, the communication stated. The proposed air lift transport routes could result in "extreme hardship".

The communication stated further that the 50-mile limit cannot be put into effect in western provinces where the service is poor.

Calgary county, in southern Alberta, is 175 feet below sea level.

LOOKING AT VICTORY BONDS THROUGH PATRIOTIC EYE-GLASSES

THIS IS WAR. We are all defenders of our flag... we, the UNARMED forces of Canada, ALL of us cannot go to the firing-line, but we can and must do our part at home. We must work, we must save, we must sacrifice.

THIS IS WAR. We've learned that courage alone won't stop tanks. We've learned that we must work as many hours making guns as our boys will work using them.

THIS IS WAR. It means doing without some of the luxuries we have come to look upon as essentials. It means fewer pleasures—fewer clothes—less entertainment. Above all it means more of the spirit of self-denial.

THIS IS WAR. That means money—your money—for Victory Bonds and the price of Victory.

"Y" Board Introduces New Members

When the Board of Directors of the Y.W.C.A. met on Tuesday, the president, Mrs. M. C. McCann, asked for a roll call of all members as an introduction to the new members. Mrs. W. A. MacDonald, Mrs. Frank Wolfe, Mrs. D. G. MacQueen and Mrs. Harold Johns.

Mrs. W. K. Forbes read a letter from the Y.W.C.A. head office, which told that the National President, Mrs. Harvey Agnew, had been asked by the government to superintend the Housing Program, under the Consumers Branch of the war-time Prices and Trade Board, with headquarters in Ottawa.

A letter was also read from Mrs. S. H. Gander, chairman of the Women's Division of the Community Chest Campaign. Mrs. Gander thanked all "Y" members who assisted with the residential canvass of the Community Chest.

Mrs. W. J. Kelly gave a report on the work of the War Services Committee, and added that the National Convention Mrs. J. Savage and Mrs. A. L. Sanderson, chairman of personnel for War Services, would be in Edmonton Saturday to confer with the Local Y.W.C.A. Committee. Mrs. Savage and Mrs. Sanderson are visiting all "hostess houses" en route across the prairie provinces and on to the coast.

Reports were brought in from the department by the various showing plans of activity and progress.

The Week of Prayer and World Fellowship was announced for Nov. 8 to 14. The joint service of the Y.W.C.A. will be held the First Presbyterian Church Sunday evening, Nov. 8. The Rev. J. H. Shaw, minister, will deal with the subject.

Plans for Health Week around the world, "The Health of the World," will be in motion, the date set for Nov. 2 to 8.

Mrs. A. J. Powell, convener of the Health Education Committee, led the devotion taking a health and significant subject, relating health to the spirit.

Mrs. Horace Johnson gave an encouraging financial report and Mrs. McCann thanked her.

Between Lectures

Halloween, the evening of ghosts, pumpkins and witches, will be celebrated by many students of the University of Alberta at an informal dancing party in Convocation Hall. The informal party is the first of regular Saturday evening house dances put on by the Students' Union. The parties are arranged to fill a need for dancing facilities and to give students a good opportunity for meeting other students. Dancing will be in progress between the hours of 8 p.m. and 11:45 p.m.

Hostesses for the evening will be Miss Mary Wainwright. The affair is arranged by the Students' Union committee, William Payne, Hank Hinkinson and Evan Wolfe.

Not to be outdone by the Halloween dancing party, the members of the Outdoor Club and their guests will gather at the Tuck Shop Friday evening for the club's annual hayride. From the Tuck Shop the racks will take the jolly crowd for an evening ride ending up near the Outdoor Club building.

Costing free and outdoor refreshments will greet the guests. The party is the first of a series of social events of the season. It is being planned by the executive, Les Miller, president; Mrs. Jane Stevenson, vice-president; Donald Cormie, secretary-treasurer; and Neil Carr, treasurer.

More than 250 student members of the Engineering Students' Society, including the very new members, gathered in the amphitheatre in the Medical building Tuesday evening for the second meeting of the season. Two interesting films, "The History of the Canadian" and "The History of Lubrication Engines," were shown to the audience. Concluding early so that the greater part of the evening might be devoted to the discussion of the "coke" and doughnut-making to the delight of the evening songs. The meet was arranged by the executive, headed by B. J. Anderson.

Organized in conjunction with the University Dramatic Society, the Make-Up Club held its second meeting Tuesday evening. The club consists of 20 enthusiastic members interested in learning the art of dramatic make-up. This year the club is being given professional instruction by Mrs. Iara Macdonald. The members meet once a week to take an hour's lesson on the subject and then to practice on one another. They will help with make-up in the Drama and Philharmonic presentations. President of the club is George Agor and Miss Betty Tragle is secretary.

With final examinations looming close on the horizon for the accelerated class in dentistry, the Dental Club will climax its few social activities in the season with their annual banquet and dance Nov. 11. The affair is arranged by the executive, William McPhail, president.

Chamber Holds Annual Meeting; Officers Named

Continued from Page Nine

Mr. Stille, Mr. MacDonald, Mr. Thompson, J. A. Weber, Robert Chapman, R. C. Marshall, Reg. T. Rose and H. Napier Moore.

Tenets were prepared to the King and to the Armed Services.

Land of Hope and Glory" was sung following the toast to the Armed Services.

Ed McGarvey led the community singing and Jack Jones sang two solos. Mrs. Betty Sims was accompanist.

Max Ball expressed a vote of thanks to the retiring chamber council, and expressed gratification at the knowledge that the chamber in the past year recognized that its success "depends upon what lies in the background."

Navy farmers of rural Edmonton, who are members of the agricultural section of the chamber attended the meeting.

PRESIDENT'S REPORT

In the president's report, Mr. MacDonald reviewed briefly the impressions he received during his visit to Eastern Canada when he attended the annual meeting of the Canadian Chamber of Commerce.

He stated that he was disappointed in the general lack of knowledge by the east of western development.

He stated that it was an unfortunate situation which he hoped would be rectified as soon as possible. He stated that in the past year Edmonton's position as a key city to northern development has gone a long way towards turning the east's attention towards the west.

Another very pertinent point at the present time across Canada is the need for establishing good will between Canada and the United States, Mr. MacDonald stated. Edmonton has an excellent opportunity to take a lead in that regard, he added.

Mr. MacDonald stated further: The Edmonton Chamber of Commerce year which ends in October, 1942, will not be noted in history as the year the war began, nor, regrettably, the year it ended, but the impact of an event during the year has already brought more wartime activity to Edmonton than the tragic happenings in Europe, which will influence the pace of development of our territory as possibly no other event in our civic history—Pearl Harbor.

The strategic importance of Edmonton in relation to the war in the Orient was quickly realized and within the year Edmonton's claim to be the gateway to the West was definitely established.

OUTLET FOR WEALTH

The route of the Alaska highway was not determined by commissions, nor by political hobbies, but by Hirohito. His decision to gamble with Marx may yet bring about the longest highway in the world, connecting the Americas with Asia and Europe. This report is not the place for indulging in such wide speculation, but as a representative business organization, we are keenly aware of developments which are already under way, incident to the Alaska highway, and have a very definite interest in continuing the tremendous possibilities of our rich hinterland whose development awaited one thing only—an outlet.

Edmonton does everything in her power to extend its geographical frontiers, and to the assistance rendered by the chamber accommodation committee earned and received the thanks of the Americans.

On the same connection the Northern Alberta Railway rendered a quality of service day and night about which many have heard. Suddenly, confronted with a transportation task that was many times in excess of normal peace time requirements, it not only met the demand to the complete satisfaction of the military authorities, without injury to the railway, but actually increased their service.

We are more than a little proud of our council member, Jim MacArthur, general manager of the N.A.R., who never missed a council meeting when in town and was entirely instrumental in cementing the friendship between the Edmonton Chamber and the boards of directors in the Grande Prairie and Peace River districts by conducting round-trip visits from our council. His hospitality and sound judgment deserve our appreciation.

MEMBERS WELL SERVED

The membership of the Edmonton Chamber was well served by its council. The men who selected have been regular in attending to their duties, tremendously interested and capable. It is a pleasure and an honor to have been associated with them and any attempt on my part to mention the contribution of any would involve me in a recital of all the names of your board and many others outside the board.

Closely related as we are in our business life with agriculture, the forming this year of an agricultural section composed entirely of farmers was an important achievement. This section should derive much benefit from its association with the chamber and the chamber will find it of inestimable value in dealing with agricultural and farm business interests.

It is with deep regret we record the passing of a number of members of our chamber who over a period of years rendered distinguished service to this business community. Tribute was made at the time of their passing and we

express again our sense of gratitude for their labors in this chamber.

They are: D. M. Duggan, R. C. Tipton, A. P. Chaffell, Chas. Christian, John M. Imrie, Herbert Baker, John Gillespie.

Reg. T. Rose, followed with the report of the executive secretary, reviewing the chamber's activities during the past year and outlining the work done by the many sections of the chamber, and by the special committees that were established as necessary required during the year.

GENERAL REVIEW

He enumerated the briefs, proposals and submissions that the council prepared and presented to the chamber and the special committees that were established as necessary required during the year.
